Northeast Communications Group Awarded U.S. General Services Administration Telecommunications Cabling Contract

FOR IMMEDIATE RELEASE – August 13, 2014 (Hamilton, NJ) ... Northeast Communications Group announced today it has been awarded a federal telecommunications cabling contract by the U.S. General Services Administration (GSA). GSA is a federal agency offering private sector professional services, equipment, supplies, telecommunications, and information technology to government organizations and the military throughout the United States.

The GSA contract will include a full-line of communication wiring installation and related services. It also includes a full-line of nearly 1,200 commonly used telecommunication products which will be made available to governmental entities utilizing this contract. The initial five-year contract award became effective on August 11, 2014 and has three additional five year options. Northeast Communications Group's GSA vendor number is GS-35F-475BA.

"We are pleased to have been awarded this cabling contract and look forward to working with GSA to introduce our quality telecommunication services and products as well as customer service to its participating government entities as well as to creating new partnerships with public sector organizations throughout the country," said Christopher Kent, Chief Executive Officer for the company.
